*Mission  
Statement*

Partnering with individuals  
and families to end  
poverty through  
community-based  
solutions.

# Mission Statement

Partnering with individuals and families to end poverty through community-based solutions.

## COMMUNITY SERVICES BLOCK GRANT AND ROMA

The Nebraska Department of Health and Human Services provides seed money for Community Action through its Community Services Block Grant (CSBG).

The grant is a major cornerstone for Community Action across the Nation. Community Action is able to leverage millions of dollars in program and operating funds along with attracting a wealth of partnerships with community and faith based organizations.

Results Oriented Management and Accountability (ROMA) is an innovative managerial practice that incorporates the use of outcomes into the administrative, management and operations of Community Action. CNCS is constantly working on inclusion and implementation of six national ROMA goals.

# Agency Year in Review

*from the Executive Director*

Central Nebraska Community Services 2010 year in review is a great opportunity to thank all of you who make our success possible. The agency provides services to our 21 counties in north central Nebraska with a special focus on Early Childhood Programs, Health & Nutrition, Family Outreach and Community Economic Development. CNCS presents a review of our programs along with success stories that bring out the best in our children, families and communities.

CNCS would also like to take this opportunity to thank our board of directors for all of their time and support in setting policy and direction. The agency thanks our funding partners, Head Start policy council, and our dedicated staff for a job well done. CNCS will continue to listen and receive input from our communities to improve services and enhance partnerships.

This year's annual report is designed like a good book intended for you to read from cover to cover as often as possible. Please feel free to call, drop by one of our offices or visit our website for more detailed information. Our goal is to share resources and partner with communities to leverage dollars in the best possible combination. CNCS understands this is only possible when open channels of communication invite interaction and socialization. Enjoy your reading and be sure and visit us soon.

Strategic Planning is a big part of CNCS's road map for continued success. This year's plan will help define areas of specific need and create bench marks for future development and enhancements to already successful programs. CNCS's strategic plan was developed to align with the Community Service Block Grant national goals. The ability to show impact and success now rests with the agency. CNCS is committed to growing our own leadership, investing in ourselves and promoting from within when possible. Rewarding accomplishments and encouraging shared decision making with open and honest communication. Promoting positive feedback and encouraging children, families, staff and communities to showcase their talents.

The combined efforts of this work contribute to these 6 national goals:

- Self-sufficiency
- Improved economic conditions
- Shared stakeholders in a community of one
- Enhanced partnerships
- Increased capacity within our organization to achieve results
- Strengthening families to achieve their full potential and connecting to supportive service.

Family and community wellbeing will always drive the need and desire to be successful for all of us at CNCS and the communities we serve. CNCS invites you all to help our efforts and move forward in a positive direction for dynamic change and social wellbeing of all our communities. Visit us on the web at [welcome2cncs.com](http://welcome2cncs.com) for more information and a complete post of our strategic plan.
